

Vintners Rooms Restaurant, Edinburgh

THE TASK

The Vintners Rooms is a unique candlelit restaurant and wine bar in the old merchants' auction room in the vaults warehouse. The restaurant provides a relaxed Georgian setting in the heart of Leith, Edinburgh.

TPS carried out a sensitive restoration design of this 18th Century building enhancing the qualities of the existing restaurant.

The client requested the restaurant/dining/bar areas be refurbished with a subtle touch retaining all the characteristics and charm of the original scheme. The toilets however required a complete refurbishment. It was felt appropriate at concept stage to fit-out the toilets using a more modern approach through the use of finishes and lighting.
