

## Snowdonia National Park

### HAFOD ERYRI - SNOWDON SUMMIT VISITORS CENTRE

Set in a national park with strict planning guidelines, the new visitors centre needed to be complementary to the surrounding area as well as providing a first class facility for visitors to the summit. It is a granite building which has pride of place on top of the mountain.

The Centre has Britain's highest café at 3,560ft with stunning views across Wales.

TPS worked with the design team to ensure a BREEAM rating of Very Good was achieved.
