

## National Assembly Wales – 3D visualisation

The prestigious 2006 RIBA Stirling Prize Awards recognised a TPS project in last weekend's high profile ceremony at the Roundhouse in London. TPS visualisation played an integral role working on the National Assembly for Wales which featured Richard Rogers Partnership in the team.

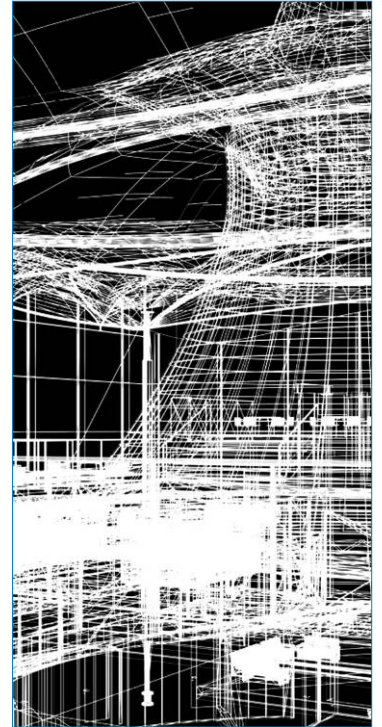

We were tasked to provide 3D visualisations for this project to highlight proposed areas of interest and for public consultation.

### THE RESULT

The visuals allowed the public to quickly grasp complicated areas of design and layout which also allowed the designer identify design issues regarding layouts, colours and finishes

The overall project has been highly successful and commended, contributing to the landmark design for the National Assembly of Wales.
