

Security consultancy for the water industry

TPS Security Consulting has worked for the UK water industry since 1990 and has extensive experience in providing security solutions for utilities assets that form part of the Critical National Infrastructure. We have Government approval to provide consultancy services within the Utility Sector and have provided security schemes for over one hundred UK Designated Sites.

Our core services within the water industry are:

- Security audits in line with Government requirements
- Site assessment / security review
- Outline design & budgetary costing,
- Electronic security systems design
- Physical security engineering
- Security tender documentation and evaluation
- Security technical site liaison
- Witnessing commissioning
- Production of maintenance schedules
- Policy and procedures
- CDM duties

TPS system designs have included both electronic and physical security measures to meet requirements for Government regulated sites. Electronic solutions have included Intruder Alarm Systems (IAS), Closed Circuit Television (CCTV), Access Control Systems (ACS), and ancillary equipment. Physical solutions include high security fencing, vehicle barriers, security doors and locking systems, physical hardening to buildings (e.g. partition walls, windows, vents, etc), and free standing open assets (e.g. valves, transformers, etc) using a variety of approved methods.

Security consultancy for the water industry

Detailed designs and technical specifications can be provided to meet Government regulations and standards, and British and European standards. We can also provide contract documentation, tender evaluation and subsequent technical liaison during installation and commissioning.

TPS have experience in the provision of wide area solutions either via independent networks, or via client's existing communications infrastructures to enable centralised monitoring solutions.

We have also assisted a number of Water Companies with their general security requirements helping them to secure their normal water treatment works, depots, offices and buildings.

Water Companies we have provided security solutions to:

- Thames Water
- Severn Trent Water
- United Utilities
- Northumbrian Water & Essex and Suffolk Water
- Scottish Water
- Yorkshire Water
- Anglian Water
- Wessex Water
- Welsh Water
- South Staffordshire Water
- Three Valleys Water
- South West Water
- Bournemouth and West Hampshire Water
- Bristol Water
- North Surrey Water
