## Vacancy

# Associate Architect

### Description

TPS, a part of the Carillion group, of is one of the UK's progressive architectural and engineering design practices placed in the AJ top 35 architectural practices for 2008. Our Architectural Group has over 80 members, providing a full range of architectural, interior design and space planning services from friendly offices in London, Birmingham, Leeds and Edinburgh. We work on projects from £500k to over £100 million, using the latest software design packages, including 3D. We are known for our high quality designs and their buildability - over 80% of our projects get built. We can thus provide national strength with local knowledge. Our Birmingham office houses a team of 12 architects, working in our lead sectors of Defence Law & Order and are growing in Education, Workplace and Transport.

We now wish to augment the team by bringing in an Associate with good design and team leadership skills. You will report to the Midlands Regional Director of Architecture

### Key Responsibilities

- Developing clients briefs and winning the business
- Effectively manage own time which may be allocated to more than one project.
- Build and maintain Client relationships and help identify business opportunities.
- Management of projects from £1m to £100m in value, meeting the Clients' objectives concerning quality, cost & programme.
- Execution of the larger projects with defined design, cost and programme parameters.
- Provide technical input and supervise technical input by other team members.
- Prepare quality submissions and offers with the support of the Associate Director.
